FORUM™

Heavyweight King-Size Polypropylene Cutlery

FEATURES

- **FORK-KNIFE-SPOON- Best** Strength-to-Weight ratio of any plastic cutlery presently on the market. Patented Design.
- **FORK**-Least amount of deflection and maximum rigidity of any Heavyweight Polypropylene Cutlery on the market.
- **KNIFE**-Serrations (Teeth) are of a **unique** patented design resembling steel serrated knives. This design permits the ease of cutting meat and chicken, including small bones.
- **SPOON**-Multi-purpose design permits functionality with all applications.
- **Manufactured with break-resistant FDA-USDA Certified Polypropylene material.**

TRY IT!!! If for **any reason you or your customer are not satisfied**, we will take back any unopened case within six months from the date of purchase... **no questions asked.**

Disposable Plastic Cutlery is not Rocket Scientry. It must be affordable; it must function in its intended use; and as an added plus, should be pleasing to the eye and comfortable in the hand. **All the rest is lip service!!**

FORUM is available in our standard White color, with Champagne and Ebony as options. Special colors are available upon request, depending on quantities.

FORUM	F1001	F1002	F1003
